<u>Claims</u>

What is claimed is:

- 1 1. In a computer controlled display, a system for
- 2 scrolling a displayed document including different types
- 3 of displayed data comprising:
- 4 means for scrolling the displayed document including
- 5 a scroll bar;
- 6 means for determining the type of the displayed data
- 7 being scrolled; and
- 8 means responsive to said determining means for
- 9 indicating within said scroll bar the type of data being
- 10 scrolled.
 - 1 2. The system for scrolling in a computer controlled
 - 2 display of claim 1 wherein:
 - 3 said means for scrolling the displayed document in a
 - 4 selected direction;
 - said scroll bar indicates the position of the
 - 6 displayed data in the direction being scrolled; and
 - 7 said means for indicating the type of data being
 - 8 scrolled at said position.
 - 1 3. The system for scrolling in a computer controlled
 - 2 display of claim 2 wherein said means for indicating the
 - 3 type of data being scrolled is a color indicator.
 - 1 4. The system for scrolling of claim 2 wherein:
 - 2 said computer controlled display is a receiving
 - 3 station on the World Wide Web (Web); and
 - 4 said displayed document is a Web page.

- 1 5. The system for scrolling of claim 4 wherein said
- 2 means for indicating the type of data being scrolled is a
- 3 color indicator.
- 1 6. The system for scrolling of claim 4 wherein the type
- 2 of displayed data being indicated is non-ascii text data.
- 1 7. The system for scrolling of claim 6 wherein said non-
- 2 ascii text data are GIF files.
- 1 8. The system for scrolling of claim 7 wherein said non-
- 2 ascii text data are MIME enclosures.
- 1 9. The system for scrolling of claim 5 wherein:
- said Web page is a HTML page; and
- 3 the type of displayed data being indicated are
- 4 embedded hyperlinks.
- 1 10. The Web system of claim 5 further comprising:
- Web browsing means at said receiving display station
- 3 comprising:
- said means for determining the type of the displayed
- 5 data being scrolled at said position; and
- 6 said means responsive to said determining means for
- 7 indicating within said scroll bar the type of data being
- 8 scrolled at said position.

- 1 11. A method for scrolling a displayed document
- 2 including different types of displayed data in a computer
- 3 controlled display comprising:
- 4 scrolling the displayed document with a scroll bar;
- 5 determining the type of the displayed data being
- 6 scrolled; and
- 7 indicating within said scroll bar said determined
- 8 type of data being scrolled.
- 1 12. The method for scrolling of claim 11 wherein:
- said displayed document is scrolled in a selected
- 3 direction;
- 4 said scroll bar indicates the position of the
- 5 displayed data in the direction being scrolled; and
- said the type of data indicated is the type of data
- 7 at said position.
- 1 13. The method for scrolling of claim 12 wherein said
- 2 type of data being scrolled is indicated in color.
- 1 14. The method for scrolling of claim 12 wherein:
- 2 said computer controlled display is a receiving
- 3 station on the Web; and
- 4 said displayed document is a Web page.
- 1 15. The method for scrolling of claim 14 wherein said
- 2 type of data being scrolled is indicated in color.
- 1 16. The method for scrolling of claim 15 wherein the
- 2 type of displayed data being indicated is non-ascii text
- 3 data.

- 1 17. The method for scrolling of claim 15 wherein said
- 2 non-ascii text data are GIF files.
- 1 18. The method for scrolling of claim 15 wherein said
- 2 non-ascii text data are MIME enclosures.
- 1 19. The method for scrolling of claim 15 wherein:
- 2 said Web pate is a HTML page; and
- 3 the type of displayed data being indicated are
- 4 embedded hyperlinks.
- 1 20. The method of claim 15 further comprising:
- a Web browsing process at said receiving display
- 3 station comprising said steps of:
- 4 determining the type of displayed data being
- 5 scrolled at said position; and
- 6 indicating within said scroll bar said determined
- 7 type of data being scrolled at said position.

- 1 21. A computer program having code recorded on a
- 2 computer readable medium for scrolling a displayed
- 3 document including different types of displayed data in a
- 4 computer controlled display comprising:
- 5 means for scrolling the displayed document including
- 6 a scroll bar;
- 7 means for determining the type of the displayed data
- 8 being scrolled; and
- 9 means responsive to said determining means for
- 10 indicating within said scroll bar the type of data being
- 11 scrolled.
 - 1 22. The computer program of claim 21 wherein:
 - 2 said means for scrolling the displayed document in a
 - 3 selected direction;
 - 4 said scroll bar indicates the position of the
 - 5 displayed data in the direction being scrolled; and
 - 6 said means for indicating the type of data being
 - 7 scrolled at said position.
 - 1 23. The computer program of claim 22 wherein said means
 - 2 for indicating the type of data being scrolled is a color
 - 3 indicator.
 - 1 24. The computer program of claim 22 wherein:
 - said computer controlled display is a receiving
 - 3 station on the Web; and
 - 4 said displayed document is a Web page.
- 1 25. The computer program of claim 24 wherein said means
- 2 for indicating the type of data being scrolled is a color
- 3 indicator.

- 1 26. The computer program of claim 25 wherein the type of
- 2 displayed data being indicated is non-ascii text data.
- 1 27. The computer program of claim 26 wherein said non-
- 2 ascii text data are GIF files.
- 1 28. The computer program of claim 26 wherein said non-
- 2 ascii text data are MIME enclosures.
- 1 29. The computer program of claim 25 wherein:
- 2 said Web page is a HTML page; and
- 3 the type of displayed data being indicated are
- 4 embedded hyperlinks.
- 1 30. The computer program of claim 25 further comprising:
- a Web browser program at said receiving display
- 3 station comprising:
- 4 said means for determining the type of the displayed
- 5 data being scrolled at said position; and
- 6 said means responsive to said determining means for
- 7 indicating within said scroll bar the type of data being
- 8 scrolled at said position.
